Course Syllabus

Project Management Certificate

Prerequisite(s): Some college and professional experience in managing projects.

Required Materials/Texts: ISBN:

- Managing Across Cultures: The 7 Keys to Doing Business with a Global Mindset 1st Edition 978-0071605854
- The PMP Exam: How to Pass on Your First Try 5th Edition 978-0982760857

Web access required. Lecture power point decks, complimentary articles, and sample templates will be posted to KSU’s Moodle web site for download. Class participants may either print hard copies for class or bring personal laptops in order to work with soft copies. KSU will not provide printed materials for class. Wireless Internet is available in all classrooms.

Course Description:
The Project Management Professional (PMP®) certification is the profession's most globally recognized and respected certification credential based on the Project Management Institute's (PMI®) well-known Project Management Body of Knowledge (PMBOK®). Upon successful completion of this certificate program, participants who meet PMI® exam requirements (see www.pmi.org) will be prepared to take the PMP® exam. Topics covered include project integration, scope, time management, cost management, project control, human resource management, risk management, quality management, procurement management, communications management, professional responsibility, and PMP® test preparation.

Course Length:
The Project Management Certificate course is scheduled to meet on Tuesdays and Thursdays, from 6:00PM to 9:00PM for 12 weeks.

Criteria for Successful Completion: Successful completion requires 80% attendance and 70% or better grade.

Instructors:
Pete Schestopol, PMP
Francine Warner, MS, PMP

Learning Outcome(s):
- Recognize the 9 Project Management knowledge areas with key inputs, tools and techniques, and outputs.
- Fully understand the PMI® policies and procedures required to fulfill your Professional Responsibility.
- Share “Best Practices” of the 9 Project Management knowledge areas through open class discussions.
- Preparation for PMI® Certification Exam (PMP® Certification) through a combination of lecture, class exercises, discussion, self-study, quizzes, and practice exams.
• Apply Project Management principles through class exercises in project scope management, project time management and teaming.
• Complete Pre-Assessment and Post-Assessment of Project Management skills.

Assessment of Learning Outcomes:
Through in-class exercises, quizzes and final Post-Assessment, each student will demonstrate the ability to:

• Successfully identify the PMBOK® processes
• Successfully utilize tools and techniques to demonstrate an effectively planned project
• Analyze project flow, resources, timelines and budget requirements
• Strategize contingency and fall-back plans
• Show preparedness for the PMP® test

Methodology:
Class discussion, class assignments, A/V presentation, real-life experience, classroom exercises, and self-study.

Course Outline:

• Exam Preparation
  o What to expect
  o Exam Environment
  o Learning Strategies
  o Passing Strategies

• Project Management Framework
  o Introduction to the PMBOK
  o Organizational Structures
  o Project Management Roles
  o Overview of Projects

• Project Integration Management
  o Project Management Framework
  o Project Integration Management Process
  o Project Plan Development
